# Quadro

## Slides

# Metro Quadro Slide

Product Name - **Metro Quadro Slides**

With 3D Connector

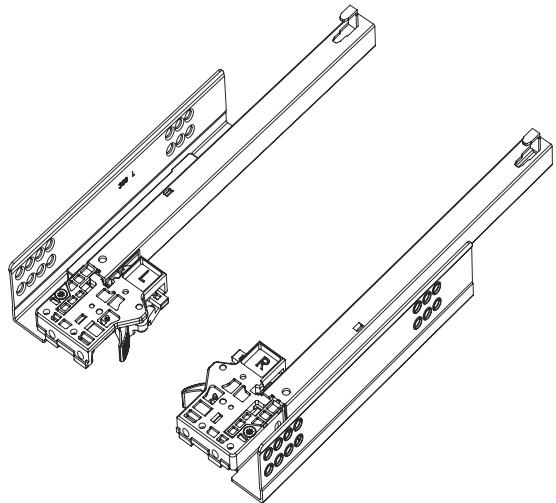

Sizes: 300 mm to 500 mm

Load Capacity- 35 kgs

## Functional Features

Concealed runners Precision as a matter of principle The perfection of Quadro runners is unmatched. Quadro is as ingenious as the ball bearing

Adding value, it can be combined and endless precision culminating in perfection Four independent rows of steel balls with perfect precision. Invisible top technology for the best in furniture

# Gvi Quadro Slides

Product Name – **GVI Quadro Slides**

With 3D Connector

Sizes: 300 mm to 600 mm

Load Capacity- 35 kgs

## **Functional Features**

Full extension with soft close and tool free assembly and removal of drawers

# Push Open

Product Name - **Push Open (SS+PVC)**

Model No. - 02C

Material - SS + PVC

## Functional Features

It can replay the cabinet pulls, just push. it to open & push it to close the cabinet. Ideal for kitchen & bathrooms. Protect your doors from slamming. Very easy to install

# PVC Skirting For Kitchen

Product Name – **PVC Skirting For Kitchen**

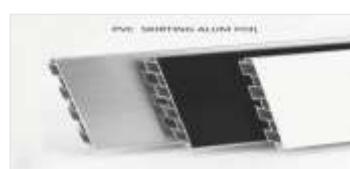

Colour – Silver & Black

Material – PVC

Width – 100 mm

## Functional Features

Easy to remove and fit, having load capacity of 18kgs. These accessories are designed to suit wardrobe width of 450mm & 900mm

# Wall Hanging With LED Light

Product Name - **Wall Hanging with LED Light**

Product Code	CV 4367/4413		
Size	600 mm Skin	900 mm Skin	1200 mm Skin
Color	Black/Grey		
Power Supply	36 Watt	60 Watt	

## Features

A wall hanging stand with LED lights is a decorative and functional item designed to display objects such as photographs, artwork, or decorative items while providing illumination.

## LED Lights

Built-in LED lights offer energy-efficient, long-lasting illumination, often with dimmable settings for adjustable brightness.

## Adjustable Light Temperature

Users can adjust the light temperature to create the desired ambiance, such as warm yellow for a cozy atmosphere or cool white for a modern look.

## Versatile Display

These stands can accommodate various objects, with adjustable height and angle for the perfect display effect.

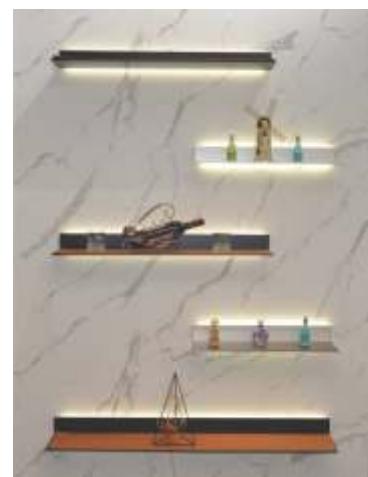

## Modern Design:

Featuring a sleek and slim profile, the stands complement displayed objects without distraction.

## Cost-Effective

Providing an affordable way to display objects and enhance room ambiance, these stands eliminate the need for expensive lighting fixtures.

Overall, a wall hanging stand with LED lights offers a stylish, functional, and cost-effective solution for displaying items and adding ambiance to home decor.

# Hinges

# GVI Corner Hinges

Product Name- **GVI Hydraulic Corner 175°**

**GVI Corner Hinges 165°**

Weight - 200 grams

## Functional Features

### Degree of Opening

The hydraulic corner allows the cabinet door to open up to a 175-degree angle. This wide opening angle provides easy access to the cabinet contents, making it convenient for storage and retrieval of items.

### Durability and Longevity

Hydraulic corners are typically designed to be durable and long-lasting. They are constructed from high-quality materials such as metal alloys, ensuring that they can withstand the repetitive opening and closing of the cabinet door over an extended period.

# GVI Pie Hinges

Product Name- **GVI Pie Hinges**

Weight - 80 grams

## Functional Features

### Self-Closing Mechanism

Auto hinges are equipped with a built-in self-closing mechanism. When the cabinet door is pushed to a certain angle, the hinge automatically engages and gently closes the door, ensuring it remains securely shut without the need for manual effort.

### Durability and Longevity

Auto hinges are typically made from durable materials such as metal alloys, ensuring their longevity and ability to withstand regular use. The materials used in their construction contribute to their durability and reliability.

# Clip On MS Hinges

Product Name: **Clip On MS Hinges**

Dimensions	2D (Light)	2D (Heavy)	3D (Heavy)
Weight	180 grams	240 grams	220 grams

## Functional Features

### Clip-on Design

Clip-on hinges are designed for easy installation and removal. They typically consist of two parts: a mounting plate that attaches to the cabinet and a hinge arm that clips onto the mounting plate. This clip-on design allows for quick and simple attachment and detachment of the hinge without the need for screws or tools.

### Soft Closing

Many clip-on MS hinges incorporate a soft-closing mechanism. When the cabinet door is pushed to a certain angle, the hinge engages and slows down the door's movement, preventing it from slamming shut. This feature reduces noise, protects the door from damage, and adds a touch of refinement to the cabinet.

Opening angle: 105-110°  
Depth of hinge cup : 11.3 mm  
Diameter of hinge cup : 35 mm  
Door thickness : 16-19 mm  
Material : iron

# GVI Slide On Hinges

Product Name- **GVI Auto Hinges**

Weight - 145 grams

# Clip On SS Hinges

Product Name: **Clip On SS Hinges**

2D (Light) - 180 grams

2D (Heavy) - 240 grams

3D (Heavy) - 220 grams

## Functional Features

### Stainless Steel Construction

Clip-on SS hinges are made from stainless steel (SS), a durable and corrosion-resistant material. Stainless steel ensures the hinges can withstand the rigors of everyday use, resist rust and tarnish, and maintain their functionality and appearance over time.

### Wide Compatibility

Clip-on SS hinges are available in various sizes and configurations to accommodate different cabinet door sizes, weights, and materials. They are designed to be compatible with a range of cabinet types, including kitchen cabinets, wardrobes, and display cabinets.

# LED Light for Hinges

Hot Selling

Product Name- **Lighting Hinges**

Make sure light off when door close.

The switch is turn on when door open.

\* Separate Batteries also available

# Tandem Box

# GVI Slim Tandem Box

Product Name: **GVI Slim Tandem Box**

Size - 4", 6", 8"

Colour - Graphite Grey

## Features

- Quite and smooth sliding performance
- Quick installation and dismantle
- Smooth running mechanism

# Metro Slim Tandem Box

Product Name: **Metro Slim Tandem Box**

Size - 4", 6", 8"

Colour - Graphite Grey

## Features

Suitable for all types of applications including kitchens, wardrobe, living rooms and office furniture.

Drawer width can be designed freely with automatic error adjustment.

# GVI Tandem Box

Product Name: **GVI Tandem Box**

Size - 300 mm to 600 mm

Colour - Grey & White

## Features

Minimal opening forces and an even smoother transition to the feather-light glide ensure that pull-outs and drawers open with ultimate ease.

Drawer side and cabinet profile components have been further refined to optimise the feather-light glide and deliver even smoother running characteristics.

# Metro Tandem Box

Product Name: **Metro Tandem Box**

Size - 300 mm to 600 mm

Colour - Grey & White

## Features

For building the ideal kitchen, pick tandem boxes of the highest construction quality, such as sturdy frames, door and drawer fronts. When choosing boxes, prioritize functionality and cost-effectiveness over aesthetics and design if the tandem boxes won't be in use for an extended period of time. These parameters will decide how appealing as well as useful these models are for customers

# Telescopic Channel

# GVI Gold 5 Balls

Product Name: **GVI Gold 4 Balls**

Size	10" to 24"	30"
Weight	70 grams per inch	

## Features

- Precision ball bearing with full extension of drawer
- Full extension for reach to the back of the drawer
- Dual rear springs for pulling heavy drawers shut

# GVI Italy 4 Balls

Product Name: **GVI Italy 4 Balls**

Size	10" to 24"	30"
Weight	60 grams per inch	

## Features

- Finish: SS 304
- Precision of drawer
- Removable drawer with Latch

# GVI Ultra 6 Balls

Product Name: **GVI Ultra 6 Balls**

Size	10" to 20"
Weight	75 grams per inch

## Features

Ball-bearing slide from GVI - Smoothly running, strong and indestructible

Drawer can be unlatched from runner to make easy installation and Re-installation  
Loading capacity: 35 Kgs

# GVI Soft Close Channel

Product Name: **GVI Soft Closing Channel**

Size	12" to 20"
Weight	70 grams per inch

## Features

- Soft-closing function built in slide, easy for installation
- Non-handed Disconnect Release
- Load Capacity: 35 Kgs

# GVI Italy Heavy & Lux Casa

Product Name: **GVI Italy Heavy, Lux Casa**

Size	10" to 20"
Weight	75 grms per inch

## Features

- Precision telescopic slides with full extension of drawer
- Direct fitting from front
- Load Capacity: 35 Kgs

### Solid Ball Bearing

Handly drawer slides are equipped solid ball on both side. Not easy to fall or break, make slide work smooth.

### Stable Two Strong Spring

With High strength performance Spring, our slides work more efficient.

# Cabinet Support

# Cabinet Shocker K 19

Product Name: **Cabinet Shocker K 19**

Capacity - 8kg, 15kg

## Features

### **Weight Capacity:**

The cabinet supports you mentioned are designed to handle specific weight capacities. The 8kg support is intended for cabinets weighing up to 8 kilograms, while the 15kg support is meant for cabinets weighing up to 15 kilograms. It's essential to choose the appropriate support based on the weight of your cabinet.

### **Material and Construction:**

Cabinet supports are typically made from durable materials such as steel or high-quality plastic. The construction should be robust and reliable to ensure long-lasting performance.

# Cabinet Support G 126

Product Name: **Cabinet Support G 126**

Capacity - 6kg

## Features

The cabinet support should provide smooth and effortless opening and closing of the cabinet doors. Look for supports with mechanisms that prevent sudden slamming or accidental closing of the cabinet doors.

Ensure that the heavy cabinet support is durable and stable. It should be able to handle the weight of the cabinet without sagging or causing any structural issues. Look for supports with a solid build and positive customer reviews regarding durability.

# Cabinet Support G 125 Heavy

Product Name: **Cabinet Support G 125 Heavy**

Capacity - 8-9 Kg, 10-11 Kg, 11-12 Kg

## Features

The bi-fold system should be specifically designed to handle heavy loads. Look for a system with a high weight capacity that can accommodate the weight of your cabinet doors.

A high-quality bi-fold system should provide smooth and effortless operation when opening and closing the doors. It should have smooth gliding mechanisms or hinges that allow the doors to move without sticking or binding.

# Cabinet Support Q-3

Product Name: **Cabinet Support Q-3**

Finish - Nickle

## Features

The cabinet supports should have a weight capacity that is appropriate for the specific weight of your kitchen cabinet. It is important to choose supports that can handle the weight to ensure stability and prevent damage.

Cabinet supports are typically made from materials such as steel, aluminum, or high-quality plastic. The construction should be sturdy and durable to withstand the weight of the cabinet and regular use.

# Cabinet Support Q-1

Product Name: **Cabinet Support Q-1**

Finish – Nickle

## Features

Look for cabinet supports that are easy to install. They should come with clear instructions and include all the necessary hardware for mounting. Some supports may require additional tools like screws or brackets for proper installation.

The cabinet supports should provide smooth and effortless opening and closing of the cabinet doors. They should have mechanisms that prevent sudden slamming or unintentional closing of the cabinet doors.

# Cabinet Support Q-4

Product Name: **Cabinet Support Q-4**

Finish - Chrome

## Features

Ensure that the cabinet supports are durable and can withstand daily use over an extended period. They should be stable enough to support the weight of the cabinet without sagging or causing any structural issues.

Safety is important, especially in the kitchen. Look for cabinet supports with safety features like soft-closing mechanisms or dampeners to prevent fingers from getting caught and to minimize noise when closing the cabinet doors.

# Cabinet Support Q 316

Product Name: **Cabinet Support G 316**

Capacity - 4 Kg

## Features

The cabinet support should have a weight capacity of at least 4kg to safely support the weight of your cabinet. It's important not to exceed the weight limit to ensure stability and avoid potential damage.

Look for a cabinet support made from durable materials like steel or high-quality plastic. The construction should be sturdy and reliable, able to withstand the weight of the cabinet and regular use.

# Cabinet Support G 127

Product Name: **Cabinet Support G 127**

Capacity - 4 Kg

## Features

Select a cabinet support that is easy to install. It should come with clear instructions and include all the necessary hardware for mounting. Make sure it doesn't require complicated tools or expertise for installation.

The cabinet support should provide smooth and effortless opening and closing of the cabinet doors. Look for supports with mechanisms that prevent sudden slamming or accidental closing of the cabinet doors.
